Tax class I c/kWh	2.25300	2.79372

### Electricity tax

An electricity tax is levied on all electric energy supplied to customers through a distribution network. The excise tax on electricity and strategic stockpile fee are included in the electricity tax charge.

### Event Electricity

Event Electricity is by origin certified hydroelectricity.

The summer electricity price is valid between 1 April and 31 October. The winter electricity price is valid at other times.

In accordance with section 21 of the Electricity Market Act, the sale of Event Electricity is limited to event-related electrical connections opened for short-term electricity use for a maximum period of 6 months without concluding a connection contract and encompassed by Helsingin Energia's obligation to deliver.

\* The prices including value added tax have been rounded to two decimal places.
